Capabilities Narrative

Based in Kansas City, Missouri, Access Solutions, Inc. is a privately owned, independent software vendor serving the private sector (Business-to-Business, B2B) and public sector/government (Business-to-Government, B2G) clients at the local, state, and federal levels. The firm partners with established OEM companies such as Broadcom Mainframe Technology Partner Program and IBM.

Access Solutions, Inc.'s primary focus is to reduce the cost of and simplify support and administration of Top Secret® z/OS® on your IBM z/OS mainframe. We help our private sector and government clients reduce security support and operation expenditures, improve service levels and security, and simplify streamlined workflows. We accomplish this by enhancing the productivity of your staff and providing critical, necessary functionality otherwise missing from legacy Top Secret® implementations.

Past Performance

2006-Present

2017-Present

The use of federal department/agency logos does not imply commercial endorsement or commitment by any government agency.

Key Differentiators

- **TSSadmin Express™ Reputation:**
 - It is the only commercially available solution made exclusively for improving productivity and simplifying administration, support, and auditing of the Top Secret® z/OS security system.
 - It works alongside Top Secret®: no hooks, exits, middleware, or APF authorization. Top Secret® remains in full control, and legacy use is unaffected.
- **Customer Longevity:**
 - Our customers have proven the clear ROI of using it, evidenced by long-term subscription renewals, including many customers reaching as far back as 2006.
- **Professional Services:**
 - Relief and staffing expertise with all aspects of working with TSS
